## Mission

To deliver **innovative** and **creative** solutions to U.S. intelligence, defense, homeland security, and cybersecurity communities and their international partners through cutting-edge education, training, security, research, and analysis programs.

## Core Competencies

- **Education & Training:** **Cradle-to-Grave** approach along a full spectrum of **tailored** education and training programs through innovative and creative solutions in virtual and traditional settings
- **Analysis & Planning:** **Integrating and synchronizing** intelligence, plans, and operations – providing holistic analytical solutions to complicated and complex challenges
- **Global Reach:** Bridging cultural gaps and communicating key concepts to our **international partners**, placing them on an equal footing as ISR professionals
- **Information Technology:** **Understanding how to sort** through big data and **find and apply** critical information – fusing technology and advanced human cognition

## Past Performance

- Developed and conducted tailored, dynamic professional intelligence education and training courses that feature realistic practical exercises
- Created a cutting-edge online training and developmental portal offering one-stop access to courses, games, simulations and mentor networks for more than 10,000 AF ISR professionals
- Delivered Subject Matter Expertise, analysis, and collection management support in DoD intelligence and intelligence-related activities, sensitive operations, planning and policy
- Global reach spans more than ten nations across five continents
